Town Planning Commission Appointed by Council

The town council on Tuesday gave first reading to a bylaw appointing a town planning commission for Coleman, including two members of the council to be appointed, J. M. Allan, chairman of the school board, G. Kellock, vice president of McGillivray Creek Coal & Coke Co. Ltd.; O. E. S. Whiteside, general manager of International Coal & Coke Co. Ltd., and H. T. Halliwell, president of the Board of Trade.

This commission will co-operate with the provincial parks commission in the setting aside and improving an area adjacent to Crow's Nest Lake under the provincial parks scheme. The parks commission inspected the area last summer and the members were very favorably impressed with the possibilities of developing a mountain resort amid the natural beauty of the district.

IN MEMORIAM

Treasured memories of our dear Mother and Wife, Sophie Lendeky, who departed from us, May 19th, 1929. Ever remembered by her husband and daughter Anna.

You were always true and patient. Through the years you struggled on, And the hands that rest forever Made the home that now is gone. For light the stars are gleaming, On a lonely silent grave, Where sleeps in dreamless slumber One we loved but could not save. Long days, long nights, she bore in pain, To wait for cure, but all in vain, Till God Himself knew what was best, He took her home and gave her rest. Better in Heaven, far better than here, A little while longer and we'll meet you Mother Dear.

IN MEMORIAM

In loving memory of Tony Nicholas, who was killed at Lundbreck Falls on May 26, 1929.

The blow was sudden, The shock severe, We little thought his death so near, Only those that have lost can tell, The sorrow of parting without farewell. —Inserted by his loving parents and brothers and sisters.

Local and General News Items

Alex. Easton of Granum, was a visitor here on Sunday and Monday.

Evelyn and Mildred Higginbotham were Lethbridge visitors during the week.

Vice-Pres. Kellock of McGillivray Co. was a recent visitor to Spokane and Minneapolis.

James Kellock, formerly with International Co., is reported to have been appointed pit boss at the Mohawk mine.

The local branch of the Alberta Teachers Alliance held a meeting and short program on Tuesday evening.

Have your change ready for the newspaper boy when he calls, and make it easier for him on his round.

Mr. and Mrs. Frank Celli visited their farm at Creston and returned with some very fine lilac blooms. People at first thought it was a bridal party returning.

Intermittent snowfalls from Sunday till this morning (Thursday) make springtime in the Rockies very cool. The longest day of the year will be just a month from today.

The concert in the United church last Thursday was exceptionally fine, everyone expressing appreciation of the program. Out of town artists were Mr. McMurdo of Pincher Creek and Miss Cole of Lethbridge. The choir committee are to be commended for the success of their efforts.

Miss Olive McLeod and Miss McEachern motored from Lethbridge on Sunday and were the guests of Mrs. T. B. Smith. They were on the teaching staff here several years ago. Winnifred Dunlop came with them and spent a few hours at her home.

Edna Hoggan received a blow on the head from a bat while playing baseball, and next day Sidney McEwan was injured in the same way. Each child's injury necessitated a few stitches to sew up the wounds.

Fraser McLeod is home from Alberta University for the summer vacation. He and Margaret Allan received word this week of having passed their examinations, for which congratulations are due to these students from Coleman.

Sport fans will be interested to learn that Kid Hughes of Michielis matched to meet Jimmie Burrell of Lethbridge, well-known boxer, for the junior welterweight championship of Western Canada. Promoter Frank Barringham arranged this match and hopes to put it on the latter part of June.

Why inflict annoyance on people by poorly written letters when a Remington portable typewriter will enable you to send letters which can be speedily read and risks of errors minimized. See the new models, with their many improvements. Demonstration at The Journal office. Supplied in a variety of colors.

The Shamrock tag day relief committee, of which Mrs. Guerdal is convener, intend putting on a dance in the Opera house on May 27, admission 50c. The proceeds will be used to augment the \$88.50 already collected, to be used for relief purposes. Confetti, novelties, noisemakers at the dance, commencing at 9:30 p.m. Mason's orchestra, tickets 50c each. Everybody invited and welcome.

Mrs. O. E. S. Whiteside was a visitor last week at Calgary.

Bobby Dewar has been seriously ill during the past two weeks.

Born on May 16 to Mr. and Mrs. T. Holstead, a daughter.

Mrs. D. K. Allan of Westlock, Alta., was the guest of Mr. and Mrs. Rippon over the week end.

Mrs. J. W. Boulton of Lethbridge was here during the week visiting her daughter, Mrs. Sidney C. Short.

Mr. Clarke of Macleod recently arrived to again act as assistant to Forest Ranger Boulton, and with his wife and child has taken up residence on Sixth street.

Mr. and Mrs. J. K. Petrunick, New Coleman hotel, are the proud parents of a seven-pound baby daughter, Virginia Camille, born Thursday, May 14.

To-night! Remember the whist drive at Holy Ghost parish hall by the Ladies Aid. Good prizes. Tickets 35c. Come and enjoy yourselves.

Ed. Ledieu and his wife and children had a long day's motoring on Sunday, making the round trip from Coleman to Creston and return, over 360 miles.

Mrs. Robert Carson returned recently from several months visit with her husband's relatives in Scotland, and on Monday she arrived from Toronto to visit her parents, Mr. and Mrs. G. R. Powell.

The Marx Brothers in "Animal Crackers" at Palace theatre last week end proved an extraordinarily delightful comedy. This week end there will be played "Monte Carlo," starring Jack Buchanan and Jeannette MacDonald.

Coleman Players were given a good reception on Friday night at Blairmore. "It Pays to Advertise" was productive of equally as many laughs as on the first presentation in Coleman, and the lessons on the psychology of modern advertising were just as forceful. The play was a riot of laughs and many complimentary remarks were heard at the close. Blairmore Ekspansors the performance, which was in aid of the Boy Scouts of that town. On Friday evening the players go to Corbin to play under the auspices of the community club of that town.

TOWN OF COLEMAN

Tax Recovery Act

Notice is hereby given, that, under the provisions of The Tax Recovery Act, 1929, the following lands will be offered for sale, by public auction to be held in the Town Hall, Coleman, Alberta, on Wednesday the 17th day of June, 1931, at the hour of 10.30 a.m.

Lot	Block	Plan
5, 6, 7	C	2446 A.A.
18	H	"
11	I	"
3	J	"
2	4	\$20 L.
25	9	"
13	11	"
8	22	"

Each parcel will be offered for sale, subject to a reserve bid, and the reservations contained in the existing certificate of title. Terms, cash, unless otherwise arranged.

Redemption may be effected by the payment of all arrears of taxes and costs, at any time prior to sale.

Dated at Coleman, this 20th day of April, 1931.

James Ford,
Secretary-Treasurer

Tennis Club Tournament

Coleman Tennis Club will hold an American Tournament May 23 to 25, beginning at 2 p.m. Saturday May 23. Men's singles and doubles, ladies singles and doubles, and mixed doubles will be played. All players in the Crow's Nest Park Lawn Tennis Association are invited to contest. The fee is 25c per entry. Doubles players will select their own partners. For further information see notice board at the courts.

Masonic Social To-Night

At 8.15 p.m. Rt. Wor. Bro. T. M. Burnett will show a further series of motion pictures of his recent world tour, which will be followed by refreshments and a dance. Members and visitors, and their families, are cordially invited to attend — M. W. Cooke, secretary.

United Church Services

Sunday, May 24: Sunday school 10 a.m., musical service 11 a.m., young people's group 7 p.m.

Board of Trade Notes

Coleman Board of Trade is continuing its efforts towards the establishment of a provincial park at Crow's Nest Lake. Mr. Whiteside, chairman of the parks committee, recently received a letter from Mr. Robertson, deputy minister of public works, stating that owing to there being so many requirements for unemployment relief, that very little was appropriated for parks development in 1931.

An impression had gained some credence that a grant had been made for park improvement at Lundbreck Falls, but there has not been a grant made, stated Mr. Robertson in his letter.

The local war memorial committee, which has nearly \$1,000 on deposit in the bank, is considering purchasing a portable X Ray machine for the hospital, and it is proposed to place a bronze plaque bearing the names of Coleman men who were killed or died on service during the war.

Mr. and Mrs. Robert Evans and Mr. Roberts were visitors at Lethbridge this week.

You Can't Paint a House with Applesauce

Don't listen to anybody who tells you that "cheap" paint is just as good as GOOD PAINT. That kind of talk is "applesauce," pure and simple. Its mighty poor material upon which to lay plans for painting your house.

Buy Jamieson's Famous Paints for value, long life and general satisfaction.

Canada and World Disarmament

During this present period of world-wide business depression some people, good people too, are heard to thoughtlessly remark that the only way out will be another great war; that such a struggle will be the ultimate outcome of the world's existing difficulties. Such a statement should be the last to pass the lips of any person. Another war, instead of being a cure, would be the final world catastrophe.

Many contributing causes there may be to the economic trails of today, but the main source of all the trouble is to be found in the Great War, 1914-1918. That titanic struggle laid the foundations for what has since taken place. In fact, all students of history fully realize that our present experiences are but a repetition of those which followed the Napoleonic wars. Another great war would have exactly the same results, only worse, because modern world conditions only serve to intensify and prolong such disturbances when they do occur.

Instead, therefore, of even thinking "war," the peoples of all nations should think and act for building but permanent peace, and direct all their energies to the consummation of that ideal.

What is the great financial burden resting on the shoulders of the Canadian people today? It is the debt created by the Great War. The public debt of Canada created in the upbuilding of this Dominion from before the time of Confederation down to 1914 calls for annual interest payments of only \$12,863,000, or only 3 1/2 per cent. of our national expenditures, and approximately \$1.30 per head of our population. On the other hand, interest charges on the public debt created since 1914 amount to \$108,857,000, or 27 1/2 per cent. of our annual expenditures, and more than \$10.00 per head of population in each and every year.

But this is not all of the war burden. In addition to this 27 1/2 per cent. interest on the war debt, Canadians are required to devote another 12.40 per cent. of all expenditures for services arising out of the war, such as pensions, after care of soldiers, etc. That is, out of every \$100 expended by the Government of Canada each year, \$38.42 is directly attributable to the Great War. This is the burden which ties the hands and cripples the efforts of our national government.

Of every \$100 expended by the United States \$60.00 is spent because of war, past, present and future. The war expenditures of Great Britain are in like proportion, or possibly even heavier.

In a recent speech before the International Chamber of Commerce meeting in Washington, President Hoover declared that the present world depression is largely due to "the destruction of life and property, the great tax burdens, and the social and political instability which resulted from the Great War," and he declared that one major accomplishment which international co-operation could effect in reducing tax burdens, removing a primary cause of unrest, and establishing greater confidence for the long future, was "the limitation and reduction of armaments." President Hoover proceeded to back up his assertion with these startling facts and figures:

"The world expenditure on all arms is now nearly five billions of dollars yearly, an increase of about 70 per cent. over the previous to the Great War. We stand today with nearly 5,000,000 men actively under arms and 20,000,000 more in reserve. These vast forces, greatly exceeding those of the pre-war period, still are to be demobilized, even though twelve years have passed since the Armistice was signed, because of fear and of inability of nations to co-operate in mutual reductions. Yet we are all signatories to the Kellogg-Brandt Pact, by which we have renounced war as an instrument of national policy, and agreed to settle all controversies by pacific means. Nevertheless, in the face of such a declaration from President Hoover, and also in the face of a huge national deficit of over \$800,000,000 which is enforcing economies in practically every department of government, the United States budget for 1932 provides for an increase of \$26,000,000 in prospective outlays on military-naval expenditures.

Canada, too, is a signatory to the Kellogg-Brandt Peace Pact, and as such this Dominion is steadily reducing its expenditures for defence purposes. We have no offensive services. Expenditures for National Defence by Canada are the smallest of any country in the world having anything like the same population or degree of wealth. They total only 5.06 per cent. of our annual expenditures; in other words, about two dollars per head of our population.

While, therefore, this Dominion is not at all blameworthy for the present state of world armaments, the Canadian people should be staunch supporters of further disarmament everywhere as a step towards permanent peace.

As a people we cannot remain indifferent to the attitudes of other nations, and unless a general reduction in armaments takes place another world tragedy will be enacted, and into it we may again be drawn as active participants, and in any event cannot escape its disastrous effects.

Canada On Air Highways

"Canada is on the air highways which will connect the three great centres of population—Europe, Asia and North America—and it is up to Canadians to see that the Canadian sections of these great air routes are developed and operated by Canadians," said General J. H. Macbride, president of the Aviation League of Canada, in an address at Windsor, Ontario.

Fragments of cotton cloth 5,000 years old, found in the ruins of a town in India, were examined microscopically, and the fibres were found similar to a kind of cotton still grown in India.

Smothering and Fainting Spells Everything Would Turn Black

Mrs. Andrew Black, Harcourt, N.B., writes: "I had been troubled with smothering and fainting spells and everything in front of me would turn black, and I would fall down in a faint and be unconscious for several minutes. I did not know what to do, until one day I was reading where Milburn's Heart and Nerve Pills had helped so many people and decided I would give them a trial. Four boxes and they helped me wonderfully."

Unearth Ancient Treasures

Valuable Discoveries Made In Kish by Oxford-Field Museum Expedition
 Jewelry worn at the Court of Nebuchadnezzar, magnificent sculpture of the Sasanian period and royal tombs over 5,500 years old have been discovered by the Oxford-Field Museum Expedition excavating at Kish, near the site of old Babylon. Dr. Stephen Langdon, Professor of Assyriology, Oxford University, director of the expedition, has sent a report to Sir Charles Marston, author of Essays on the Old Testament, who states that the jewelry is said to be worth several thousands of pounds.

The expedition is working on three separate strata covering three periods of history. Sasanian sculpture, dating from about 250 A.D., was found on the top layer above the great Temple of Nebuchadnezzar. The find of treasure from the Nebuchadnezzar period is sensational and includes solid gold ornaments.

"It will be of great interest to know just what has been found because the time of Nebuchadnezzar is one about which we are learning a great deal from recent discoveries, and excavation is supporting the old Biblical narrative to an extraordinary extent," Sir Charles says.

Below the Nebuchadnezzar Temple have been found a further series of Sumerian royal tombs. These are about 5,500 years old and the expedition is just beginning to explore them. Written tablets and cuneiform writings have been recovered which will probably shed light on the history of those times. Sir Charles adds: "It is especially interesting to know that the date of the Royal tomb has been fixed at 3,400 B.C., so that these tablets are probably older still."

DRAPERIES MADE NEW

"When we found housekeeping a month ago I rummaged my draperies had become creased from packing. I hung them out on the line, hoping to remove the creases. Then I forgot them. The result was they became badly faded and sullied."

"I was heart sick until the happy thought struck me to dye them. I just dyed them with Diamond Dyes, and as I used Diamond Dyes they look gorgeous and new. I have never seen easier dyes to use than Diamond Dyes. They give the most beautiful colors—and never alter the tinting or dyeing—and never take the life out of cloth as other dyes do."

Mrs. J. F. T., Montreal

Industrial Manitoba

Industry Gradually Taking Priority Over Agriculture In The Province

Bearing upon the recent statement of J. M. Davidson, of the Industrial Development Board, that the province is gradually taking priority over agriculture in the province, it is pointed out that Manitoba is rich in natural resources, having more than \$600,000,000 in ore reserves, 137,000 acres of water power, and 20,000 square miles of water surface. The province is also extremely rich in metallic and non-metallic minerals. With an annual production of more than \$165,000,000, moreover, Manitoba's 130 industrial plants have a yearly payroll of \$35,000,000.

Perfecta Balm—the unrivaled toilet requisite. Essential to every dainty woman. Imparts rare charm and beauty to the complexion. Softens and beautifies the skin. Makes hands flawlessly white. Cools and refreshes. Relieves roughness. Ideal for true feminine distinction. Delicately fragrant. Swiftly absorbed into the tissues, leaving no stickiness. Perfecta Balm invariably creates a subtle elegance and charm.

Co-Operative Wool Growers

Wool Receiving Warehouses To Be Opened At Portage la Prairie and Regina

The Canadian Co-Operative Wool Growers have completed arrangements for wool receiving warehouses at Regina, Sask., and Portage la Prairie, Man., to receive shipments of wool from June 1 to August 31. A letter has been sent to the wool producers requesting that they forward their shipments to arrive at the warehouses between these dates. Reports show that the volume of wool handled in the past year was 1,038,205 pounds more than the objective for the year, which was 4,000,000 pounds.

Applies On Century-Old Tree

There will be applied this year on the 106-year-old Hudson's Bay apple tree, on the lower part of the barracks at Vancouver, Wash. The tree grew from a seed planted by a member of the Hudson's Bay Company in 1800, and seldom has missed a year in bearing. A. A. Quarnberg, horticulturist, said it very likely will bear a large crop this season.

More than 21,000,000 acres in Argentina were planted to wheat last season.

Week End Cruises

Cunard Line Will Inaugurate Week-End Cruises From New York To Nova Scotia

In an effort to further increase the popularity of Nova Scotia as a tourist country among Americans the Cunard Line announces that their now famous "Week-end Cruises" scheduled for the months of July, August and September, will include a call at a Nova Scotian port.

The statement that was issued by Arthur Randies, general passenger traffic manager of the Cunard Line in Canada, also pointed out the fact that not only will the "Week-end Cruises" call there, but those of the special "Bermuda" and "Aquitania" of the National Tours. Will also make Halifax a port of call. The co-operation of the Nova Scotia authorities has been secured and every effort will be made to see that passengers on these cruises are given as much local interest as possible to view the many attractions which the maritime provinces have to offer.

"This will be the first time," said Mr. Randies, "that three giant express liners of the size of the 'Bermuda', 'Aquitania' and 'Mauretania' have called at Halifax, except that the 'Aquitania' and 'Mauretania' occasionally visited the ancient port during the war. The first sailing of the 'Week-end Cruises' will call at a Nova Scotian port will be 'Aquitania', July 3rd, from New York. These cruises will be carried on throughout the summer until the last sailing of the 'Mauretania' leaving New York on September 18th, while the National Tours cruises will depart on July 27th with the 'Transylvania' and finish with the sailing from New York on August 31st of the 'Cameron'."

Until July there are scheduled four "Week-end Cruises" from New York, leaving New York on May 2nd in the 'Aquitania', calling at Bermuda. The second cruise will be that of the 'Mauretania', leaving New York on May 15th, calling at Nassau in the Bahama Islands. The third cruise is that of the 'Bermuda', leaving New York on May 29th and calling at Bermuda, to be followed by a cruise of the 'Mauretania', on June 5th to Nassau. The 'Week-end Cruises' to Nova Scotia will then follow. The cruise of the 'Bermuda' is also unique in the fact that it is the largest liner ever to visit Bermuda."

"These week-end cruises, the first of which have proven so popular, are drawing capacity bookings. On board the attractions include dances, moving pictures, lectures, deck sports, and every type of ship entertainment and the extremely low rates available make them very attractive."

"The reason for these cruises is to familiarize the vast numbers of people on the east side of the Atlantic who have never had the pleasure of sailing in an ocean liner, and to give them the opportunity of making a trip on one of the 'Big Three' with little or no time away from their business."

The calls at Nassau and Bermuda allow passengers to do some sight-seeing or enjoy the local attractions such as trips in the glass-bottomed boats at Paradise Beach, and sea bathing.

Officials of the Cunard Line expect that the call at the Nova Scotia port at the best time of the year will enhance the popularity of these week-end cruises.

A Constituent Of Concrete

Portland cement is used as one of the constituents of concrete for the construction of foundations, dams, road surfaces, buildings, and building blocks, cement mortars, and for many other purposes. It is one of the most important of our structural materials. Materials suitable for the manufacture of Portland cement occur in all but one of the provinces of Canada.

Like a Grip At The Throat. For a disease that is not caused as fatal there is probably none which causes more terrible suffering than asthma. Sleep is impossible, the sufferer becomes exhausted and finally, though the attack passes, is left in unceasing dread of its return. Dr. J. D. Kellogg's Asthma Remedy is a wonderful remedial agent. It immediately relieves the restricted air passages as thousands can testify. It is sold by dealers everywhere.

Indianapolis News: The man who looks nearer to one side nor the other, but who faces the front, his gaze intent upon his guiding star, is likely to be hit by somebody making a right turn.

Flame from ethylene gas may be as hot as 1,975 degrees Centigrade.

National Enrolment

May Be Compulsory

Bill Introduced In Senate As Registration Of People In Canada

Compulsory registration of all persons in Canada over the age of 16 years would be provided for under a bill introduced in the Senate by Senator J. B. Casgrain. Registration would be followed by the issue of a certificate with the person's photograph and signature on it.

Certain exceptions to the universal registration would be allowed. Cloistered nuns, members of the Royal Canadian Mounted Police or any provincial or municipal police force, inmates of asylums for the insane or mentally defective, inmates of penitentiaries and prisoners of such other institutions as might be excepted by the minister in charge of the administration of the act would not have to register.

The act would apply to everyone in Canada, including British subjects and aliens. All would have to register within a named time and all persons subsequently reaching that age would be required to register within one week of their 16th birthday.

In applying for registration a person would be required to state his nationality and, if a British subject, whether he became so by birth or naturalization. He would also submit a photograph which would be attached to his certificate.

New Use For Music

Elgar's Rousing March Clears Brooklyn Store At Closing Time

You may not have realized it, but one of the matters to which department-store executives have devoted a great deal of thought is how to get rid of their customers at closing time without actually pushing or shoving them out. A gentleman who wandered late one afternoon into Abraham Straus', in Brooklyn, New York, reports a neat way they have of doing it there. He saw it work. At five-thirty a gong rang: immediately from loudspeakers scattered along the walls issued the rousing strains of Elgar's "Pomp and Circumstance." Ladies lingering over bargain straightened, seized their parcels, and in no time were swinging briskly along toward the exits. The floorwalker he questioned, was enthusiastic about the idea, said it was the best he'd ever had for the purpose, and, incidentally, paid a high tribute to Elgar. His march, the floorwalker said, cleared the store faster than anything else they had been able to find by extensive experiments.

For Scalds Or Burns.—Dr. Thomas' Electric Oil is a standard remedy for the prompt treatment of scalds and burns. Its healing power quickly soothes the pain and aids a speedy recovery from the injury. It is also an excellent remedy for all manner of cuts, bruises and sprains, as well as for relieving the pains arising from inflammation of various kinds. A bottle in the house and reliable saves many a doctor's and veterinarian's fee.

The iron ore fields of Lapland, which is entirely north of the Arctic Circle, are among the most valuable in the world. Their averages from 58 to 70 per cent. of iron.

A Los Angeles flyer, Charles F. Rockwell, will pilot the ship. The take-off is set for June 21.

World's Grain Exhibition

Spain Making Arrangements To Participate In Conference

Though Spain is very busy just now reorganizing its national administration, the importance of the World's Grain Exhibition and Conference to be held at Regina, July 25 to August 26, 1932, has not been lost sight of.

A few days ago the headquarters' office of the Exhibition and Conference was advised by the General Director of Agriculture of the Spanish Ministry of National Economy that a special committee of cereal agriculture had been appointed to devote itself to the definite organization of participation by Spain in the World's Grain Exhibition and Conference.

Spain has a particular interest in the forthcoming world-wide grain exhibition and conference in that it is a preponderantly agricultural country. Its productive area is calculated at 114,000,000 acres of which, last year, nearly 12,000,000 acres were sown to wheat, 5,000,000 acres to barley, 2,000,000 acres to oats and 1,500,000 to rye.

Seventeen countries have now officially accepted the invitation to be represented at the Exhibition and Conference, namely: Italy, Peru, Yugoslavia, Guatemala, New Zealand, Czechoslovakia, the Netherlands, Belgium, Poland, Siam, India, Portugal, Switzerland, Estonia, the Philippines, the Argentina and Spain.

Plans Round Trip Flight Over Ocean

Commander MacMillan and Pilot Will Attempt Hop In June

In the role of trans-Atlantic flyer whose goal is the first round trip crossing of the North Atlantic by airplane, Commander Donald B. MacMillan, veteran explorer of the Arctic, will attempt to fly back and forth between Boston and London this summer.

A swift monoplane, a Lockheed Vega, the name design of ship in which many trans-continental speed records have been set, will be used. A Los Angeles flyer, Charles F. Rockwell, will pilot the ship. The take-off is set for June 21.

Germany has a huge new freight plane.

STATEMENT OF AIRSHIP POLICY FOR CT. BRITAIN

London.—Making his long-awaited statement on the airship policy of Great Britain, Prime Minister Ramsay MacDonald indicated in the House of Commons that Britain's airship activities are confined largely to scientific research. The R-100 will be retained without alterations as a ship for experimental purposes, and the base at Cardington will be kept up on a research basis.

Mooring masts established at St. Hubert airport, near Montreal; at Ismailia, Egypt, and Karachi, India, will be retained subject to the same, so far as the St. Hubert mast was concerned, of the Canadian government. He was sorry, the prime minister added, that the Canadian government had not replied as yet to inquiries as to its views on the St. Hubert mast.

"The idea was that with the co-operation of the Canadian government on the same scale as it gave us in the construction of the mast, the mast would be kept up while a new one is in operation."

Several speakers urged the Canadian government should be asked to increase the production of helium. F. Montagu, under-secretary of state for the air ministry, replied that in view of the limited supply of the R-100 there was no necessity to consider the substitution of helium for hydrogen gas. The cost should also be considered. There would be a capital charge of \$500,000 for a plant on this side and an annual expenditure of \$100,000. Besides, he said, the greater lift of hydrogen was an important factor. Mr. Montagu's explanation closed the debate.

Cannot Collect Income Tax On Indemnities

Supreme Court of Canada Hands Down Important Ruling

Ottawa.—Insurance indemnities are not liable to Dominion income tax. The Supreme Court of Canada held in allowing the appeal in the case of the British Columbia Fire and Cedar Lumber Company against the King. The company insured itself against damage to its plant and property from fire, also against loss from shut-downs of the plant resulting from fire. A disastrous fire occurred and insurance companies paid the company \$250,000. The National Revenue Department claimed the money was income and therefore taxable. The view was taken by the British Columbia Court of Appeal. The Supreme Court of Canada, however, decided to the contrary.

Conference On India

Second Round Table Conference To Be Held In November

Simla, India.—The first week of November was tentatively set for the second round table conference at Simla on an Indian constitutional status. The federal structures committee, which will undertake preliminary work, will meet in London in September.

The conference should be concluded by Christmas, exploring in less than two months problems of self-government and necessary safeguards for the great continental peninsula with its 350,000,000 souls.

There will be 100 or more delegates, including Mahatma Gandhi, whose vast constituency—the Indian Nationalists—were not represented in the round table conference recently concluded at London.

Rival Aces Meet

Wing Commander Bishop Shakes Hands With German Flyer

Montreal.—Canada's foremost war ace, credited with more aerial victories than all other allied pilots, met Major Hugo Koenig, ex-commanding officer of Baron Von Richthofen's Flying Circus recently. Wing Commander William Avery Bishop, V.C., shook hands with the German flyer, and then the two aces doggedly conjured up scenes over the Atras sector of the front away back in 1917. Major Koenig said that Bishop was as highly respected as Richthofen by the Germans at home.

Carry On Thriving Trade

Ottawa, Ont.—When the Islands of St. Pierre and Miquelon were ceded to France after the conquest of Canada by the British, it was little dreamed the time would come when they would rank ninth among the nations of the world in total trade with the Dominion. Consisting almost entirely of liquor, Canada in last fiscal year sold the two islands a total of \$11,004,479, out-ran Australia, Ireland, Argentina, Brazil, China, Mexico, Sweden and Denmark.

W. N. U. 1200

Riots In Spain

Government Orders Confiscation Of Private Property Of Alfonso

Madrid, Spain.—Following further anti-clerical riots in Spain, in spite of the strict watch of soldiers, the government has decreed the confiscation of the private property of King Alfonso, pending an investigation and commanded provincial governors to use the strictest measures to restore order.

Meanwhile Cardinal Primate Segura, a Catholic archbishop of Toledo, whose pastoral letter created a stir over a week ago, had crossed the Spanish border and was on his way through France, presumably on a journey to Rome.

Several more churches and Catholic religious houses were burned and sacked in provincial cities, in spite of the fact that martial law had been declared in most of the larger centres.

A nation-wide check-up of police forces, civil guards and provincial governors was ordered by the cabinet. The action resulted from the government's belief that some of these officials have not been stein enough in dealing with the situation. Twenty-nine chiefs of police or their lieutenants, several officers of the civil guards and one secretary of a provincial government were discharged for alleged incompetency.

It was reported also that some provincial governors were to be displaced. Cardinal Segura, accompanied by his brother, Canon of the Toledo Cathedral, drove in an automobile to the French border at Hendaye, France, and continued from there to Toulouse. It was supposed they were bound for Rome.

For Armament Reduction

Canadian Womanhood and Organized Labor Support League

Ottawa, Ont.—Canadian womanhood and organized labor strongly support the League of Nations and its aims. It was reported at the ninth annual meeting here of the League of Nations Society in Canada. It was made known that huge petition will be presented on behalf of the women of the Dominion at next year's meeting of the Naval Disarmament Conference, urging reduction of the manufacture of instruments for warfare.

Tom Moore, president of the Dominion Trades and Labor Congress and its representative on the society's executive, declared before the gathering far more was being spent in all countries on armaments than on social effort.

"It is necessary that we find some means by which money may be devoted to the betterment of the people instead of upon means of destruction," he added.

A number of other speakers reported the organizations which they represented supported the work of the League of Nations. Among these were Mrs. A. Field Robertson of the Federated Women's Institute embracing 80,000 Canadian women; Mrs. J. A. Wilson, president of the National Council of Women, and Miss Agnes MacPhail, M.P., who reported for the United Farmers of Ontario.

Interview By Television

Mrs. Philip Snowden Gives Interview Through New Medium

London, England.—While Rt. Hon. Philip Snowden, Chancellor of the Exchequer, was confined to bed for a few days under doctor's orders, the Daily Herald quoted Mrs. Snowden in what it described as "the first interview by television in history." Both the interviewer and Mrs. Snowden were visible as well as audible to each other, one in the Herald's office and the other at 11 Downing Street. Asked about the chancellor's health, Mrs. Snowden told the reporter: "He has had rather a setback this week, I'm afraid. But I do not think it is serious. However, it has temporarily deprived him of the use of his legs to some extent."

Mrs. Snowden virtually rose from a sick bed a short time ago to place the picket before the House of Commons. His physicians today told him to return to bed.

King Of Slam Betrayed

Purchase, N.Y.—King Fränsjöbjörk of Slam was betrayed by Dr. John M. Wheeler as showing further signs of improvement following removal of a cataract from his left eye Sunday. No sign of infection was noted when a second dressing was given.

Many Given Employment

Ottawa, Ont.—Latest figures in connection with the Dominion Government unemployment relief scheme show that 272,690 persons were given employment in Canada in April 30 under the joint federal-provincial-municipal program of public works.

Detect Nationalistic Spirit

British Trade Mission Finds Desire In Canada To Foster Domestic Trade

London, England.—Members of the Trade Mission which visited Canada and the United States in the interests of the Scottish woolen industry told newspapermen that they had been struck by the "intensely nationalistic feeling" in Canada.

In Canada there was a desire to foster Canadian secondary industries at all costs, coupled with a desire to buy at home, the manufacturers said. This feeling did not exist in the United States, they said. It was essential that Scottish manufacturers should have better publicity and a better selling organization in both countries the members of the mission stated.

IS OPPOSED TO ANY CHANGE IN BANKING SYSTEM

Ottawa, Ont.—The banking system of Canada is adequate to the needs of this country and no reason exists for a change. This was the opinion expressed in the House of Commons by Rt. Hon. R. B. Bennett, prime minister and acting minister of finance.

Mr. Bennett asserted that the Canadian system embraced those great basic requirements which are essential to its success. It provided the people with a safe depository for the money which they desired to save, and it furnished to those people requiring money adequate facilities for borrowing.

Mr. Bennett emphasized that complicated discussion which sometimes took place in respect to banks and their place in the community, must always resolve itself into a simple, single inquiry. "Has the bank, through its management, had due regard in lending money to the fact that it may be called upon to repay that money to the source from which it was borrowed?"

"It may well be," Mr. Bennett declared, "that the time will come in this country when it is deemed desirable to expand our system as it now exists. I am not saying it will not, I am one of those who believe that you cannot today with respect to financial operations, say with certainty what may be desirable to do tomorrow—using the word tomorrow, not in its literal sense but in relation to time as we employ the term in financial operations."

Discussion arose on a motion of G. Coote, U.F.A. member for MacLeod, Alta., asking the House to declare that "There should be established in Canada a nationally-owned central bank." At some length Mr. Coote advocated the establishment of such a bank, declaring that it could take over many of the duties now discharged by the department of finance, administration of the Finance Act, probably the issuance of Dominion notes and supervision of the Post Office Savings Bank. He expressed the view that intelligence and effective control of credit in Canada could be obtained through some such central institution.

TO SEEK BURIED TREASURE

Frederick L. Blair, of Boston, who heads an expedition this summer to seek buried treasure upon Oak Island, Off Nova Scotia, Blair has spent 30 years already in an effort to unearth the treasure from "Money Pit." Copyright by Acme Newspictures.

Estimated Wheat Acreage

Government Figures Based On Farmers' Plans May 1

Ottawa, Ont.—The estimated acreage of spring wheat in all Canada for this season is 22,152,300, as compared with 24,082,900 last year. This estimate was announced by the Dominion Bureau of Statistics in a crop report issued May 12. This means that 1,930,000 acres less will be under wheat during 1931 than was the case in 1930.

In Alberta the acreage is 89 per cent. of last year; in Saskatchewan, 88 per cent.; in Manitoba, 98 per cent.; in Ontario, 99 per cent.; Quebec, 100 per cent.; New Brunswick, 95 per cent.; in Nova Scotia, 98 per cent.; British Columbia, 102 per cent.; Prince Edward Island, 101 per cent. The acreage for all Canada for spring wheat is 92 per cent. as compared with 100 last year, a decrease of eight per cent.

The report explains that the figures are to be regarded only as an indication of the seeding plans of farmers on May 1. The actual acreage sown may be changed by later consideration, particularly by soil and weather conditions and by price movement.

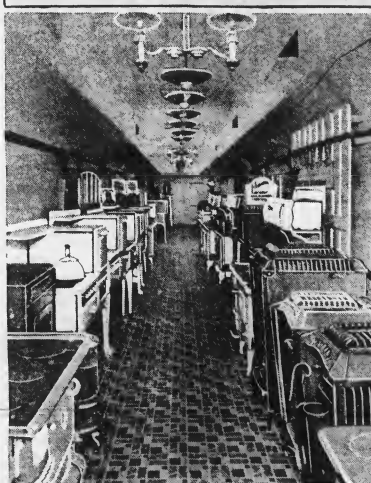

Education In Penitentiaries

Ottawa, Ont.—Greater opportunity for educational expansion should be given inmates of Canada's penitentiaries, believes Miss Agnes MacPhail, lone woman member of the House of Commons, who addressed an Ottawa service club. The increase in penitentiary inmates was attributed by Miss MacPhail to the prevalent depression and unfavorable home conditions.

Has Letter For Premier

Tokyo, Japan.—Saji Yoshihara, Japanese airman, who is attempting a States via Canada, is carrying with flight from Japan to the United States on his solo effort across the north Pacific a sealed letter from Hon. Herbert Marier, Canadian minister in Tokyo, to the prime minister of Canada, Rt. Hon. R. B. Bennett.

NOVEL DISPLAY ON WESTERN TOUR

In its specially outfitted Canadian National Railways express car now touring Western Canada, Canadian General Steel Warens are giving actual demonstrations of coal, wood, electric, coal oil and gasoline heaters. While the car will, whenever possible, travel on passenger runs, bunks have been installed for the use of attendants when the car is being hauled by freight.

Senator Urges Joint Holiday

Would Have Remembrance Day and Thanksgiving Celebrated Together

Ottawa, Ont.—Joint celebration of Remembrance Day and Thanksgiving will be introduced in the Senate by Hon. John Stanfield. When the Senate was considering a bill which passed the House of Commons, fixing Remembrance Day on November 11, Senator Stanfield gave notice of his suggested amendment. The bill was referred to a committee, where the proposed change will be considered.

The bill, as it passed the lower House, changed the name of Armistice Day to Remembrance Day and fixed it permanently on November 11. At the present time, it is celebrated on the Monday of the week in which November 11 falls.

Made In West Campaign

Develop Markets For Goods Manufactured In Western Canada

Winnipeg, Man.—Western Canadian manufacturers gathered in conference here and decided to commence a campaign to sell "Made-in-the-West" goods to the prairie folk. A plan was formulated to develop markets for articles manufactured in the Canadian West.

A distinctive identification mark or label placed on all goods was favored by the conferees. The mark would show that the articles were produced by prairie labor. Manufacturers and retailers will co-operate closely in furthering the "Made-in-the-West" campaign.

APPROVAL IS GIVEN TO EMPIRE WHEAT QUOTAS

London, England.—The Labor Government has approved the general principle of a quota for Empire wheat. This was the statement of Lord Parmoor, president of the committee in the labor cabinet, in the House of Lords. The quota would assure the wheat-growing Dominions a certain proportion of the British market.

Lord Parmoor believes the project is quite possible.

"The difficulty is one of detail which cannot be disposed of until after the forthcoming conference at Ottawa. The Dominions do not think it is impossible and neither does the government. Whether the Dominions can formulate a scheme which will be satisfactory, only time will tell," he declared.

Lord Parmoor did not believe a quota on wheat grown in Britain could be of any benefit to the farming industry, since it could not be used without adding to the burdens of the taxpayers.

The decision of the government was not unanimously endorsed by the Lords. The Labor peer, Lord Arnold, made a slashing attack on the proposal. "It is a crude and terribly unsound proposal," he stated. A quota of even 55 per cent. of the Dominions' wheat would not only be practically no increase in the current British import of Dominion wheat, but would only represent one-fifth of the joint Canadian-Australian surplus, in the current year of 512,000,000 bushels."

It was obvious he said, the economic committee of the Imperial Conference had grave misgivings as to the effect of a quota on prices. Far from furthering Imperial unity it would become a discordant Imperial factor and also invite retaliation by other countries like the Argentine.

Lord Arnold made passing reference to Rt. Hon. R. B. Bennett's offer to the Imperial Conference and the speech of Rt. Hon. J. H. Thomas, Dominion secretary, the language of which, he said, "would shock this House."

Rt. Rev. Bertram Pollock, Bishop of Norwich, challenging Lord Arnold's assertions from beginning to end, said if any kind of Empire preference was found to be good, then some further steps should be taken. "We are not necessarily committed to a long series of further steps," he declared.

Lord Parmoor has failed to follow the reasoning that a quota meant a duty on foodstuffs or raw materials. He had never part of the government's policy and the various Dominions had made it clear they did not desire it. It was not a question of price, but of quantities, and he was unable to see why a quota should prove impracticable.

On the other hand, it was useless for home farmers to have a quota without a guarantee price, which would mean raising the price of wheat from 75 cents a bushel to \$1.50 a bushel. The Government has been in the farming industry in the Old Country was an adaptation to new economic conditions, he declared.

EFFORTS MADE TO PROMOTE SALE OF WHEAT

Ottawa.—Every possible effort is being made by the government to find markets for Canadian wheat and to disburse any antagonistic attitude millers of Europe might have against grain from this country. Hon. T. H. Stevens, minister of trade and commerce, declared in the House of Commons.

When estimates for his department were before the House, Mr. Stevens was pressed by opposition members to recite the steps taken by the government to find markets for wheat in response to that invitation. Mr. Stevens said the government, upon assuming office last August, lost no time in instructing Canada's trade commissioners to bend every effort in broadening markets for wheat and flour.

In 1929 and 1930, Mr. Stevens proceeded on an altitude across Europe that was against wheat from North America. Rightly or wrongly, Canada was charged with advancing prices. European turned to other markets. Argentina received additional business, he continued, and, in addition, many flour millers in Germany, France, Switzerland and other countries changed their screens, so as to mill Argentine wheat, not Canada's.

This year the millers were found to be reluctant to change their machinery and many governments had applied "very drastic protection for their own agriculturists and wheat growers." Other nations adopted a fixed quota against foreign wheat and strenuous propaganda was carried on to use rye or black bread.

"Recognizing these conditions and to dislodge the wheat from European millers," continued Mr. Stevens, "we have tried to build up markets in other parts of the world. But that will take time. It will take years. We have made some progress. We also found new markets in Columbia, small, I admit."

Later on, Mr. Stevens said, the grain trade in Western Canada had changed its policy. That had been followed by a better feeling toward Canadian wheat in Great Britain and he hoped some day a guarantee would soon be entirely recited.

Place Idle On Land

Plan Proposed To Establish Jobless On Manitoba Farms

Winnipeg, Man.—A scheme to establish jobless on farms has been placed before the Manitoba Government by the city fathers of Winnipeg. J. G. Alexander and J. P. Siemens, of Winnipeg, are authors of the scheme. They urge that huge sums spent on unemployment relief be used to establish families on the land.

Land suitable for farming operations is available at \$1.00 to \$1.50 per acre, the men claim. Their plan would give permanent instead of temporary relief and enable the jobless to produce their own food and in time become taxpayers, the two men state. It is stated that more than 1,100 families have announced their desire to become farmers. Unemployment spent on relief can be used to aid them.

The proposed plan would permit families to occupy farms owned by the government until they can return the amount of money advanced, then they will receive title to the land.

Production Not Excessive

Livestock Report Shows Beef Growing Is on Low Basis

Ottawa.—Beef is practically the only human food at the present time that is not in excess production, states the eleventh annual Livestock Market and Meat Trade Review shortly to be published by the Dominion livestock branch.

The review observes Canada's meat production at present is on a comparatively low basis, but that this does not necessarily insure a maintenance of good prices during the present year.

Fire Causes Heavy Loss

Destroys Main Barn on Hay's Dairy Farm Near Calgary

Calgary, Alta.—Loss of \$40,000 partially covered by insurance was suffered by Hay's dairy farm, near here, in a fire that destroyed the main barn, hundreds of bushels of feed and several tons of hay.

One hundred head of prize cattle had been taken from the barn for exercise just 15 minutes before the fire started. Several head of cattle in the barn were led to safety by employees.

Celebrates 81st Birthday

Ottawa, Ont.—Hon. C. H. Mackintosh, who in 1893 was Lieutenant-Governor of the North West Territories, celebrated his 83rd birthday at his home here. He is making slow recovery from a severe attack of neuritis and rheumatism.

NOTES AND COMMENTS

The world offers plenty of opportunity for the individual. Many will disagree, but it is a fact that too many are governed by fears instead of having the courage to take the initiative. Occasionally one meets with set-backs in venturing beyond their depth or ability to accomplish, yet 'tis better to have tried and lost than never to have tried at all.

And even to-day in the midst of a period of depression which some consider the worst this generation has experienced, there are still opportunities abounding if—a big IF—we have the courage to venture. Do not blame conditions or circumstances. Master them, as Napoleon did and other great leaders. Big or small, we are masters of our fate. Too many allow Fate to master them.

There is not a business to-day which is paying the same return on its invested capital as in 1928 or 1929—not even the country newspaper business. But there are still opportunities for creative effort, still opportunities to go out into the highways and by-ways and sell your goods or your services. And it must be done if you wish to survive. You must plug harder than ever and for less reward. Better times will return, when world confidence is restored and capital loses its timidity.

An amusing phase of present conditions is the attitude of many who suffer no reduction in income, who have a fixed salary. They moan that times are hard, whereas they are receiving the same amount as when business was more active. They just think that times are hard as far as themselves are concerned. Its the married folks with a couple of days work a week who have reason to cry hard times.

Railroads give greater service to the nation than any other public or private utility or service. Business men should remember this. If it comes to a choice between auto trucks and busses, business men in the Crows Nest Pass particularly have only one choice. In fact the entire population of the district is dependent on the railway company. Without any blush at all we admit it is self-interest that prompts such a thought, for a man would be foolish who would cast away his daily bread. Were there no railways requiring coal, there would be no trading centres in the Crows Nest Pass.

Some day prosperity may return to this area, and coal will be utilized to a much greater extent in forms other than it now is. The world of science and research does not remain in a rut.

Do not take life too seriously. When you have passed on you are soon forgotten, no matter how big a toad in a small puddle you may have been.

Try and name those who have passed from your community, by removal or death, in the past five years, and you will perhaps be surprised how few you remember.

You remain in the public eye just so long as you are serviceable. After that you might as well be in the junk pile for all the public cares. If your business fails to give service, it just dies a lingering death.

If you are enthusiastic, if you are thoroughly convinced that your business is rendering service, and you are aggressive in keeping your light shining by the force of your example and optimism, you are not so easily overlooked as is he who sits and waits. If you must wait, hustle while you wait.

Now is the time to conquer adversity and depression, by asserting your enthusiasm and will-power. Some business men harbor the thought that because they are known people will buy from them. If these men reflect, they will admit that they themselves buy from those who are most aggressive in selling their wares. If they wish to increase their sales they too must be aggressive. He who waits will have to take the leavings.

The great bulk of goods purchased are from those firms—large and small—who advertise. They do not advertise just to spend money or to see their names in print. Advertising expenditures are investments to promote bigger business. Some never try to acquire the right mental slant on this phase of selling goods, and suffer accordingly. 95 per cent. of buyers are influenced by advertising. The recent play seen here, "It Pays to Advertise," presented a good object lesson to those business men who may have been receptive to it.

To the Holders of WAR LOAN AND VICTORY BONDS

A Statement by the Minister of Finance

IN THE dark days of the War, Canadians loaned to the Government of the Dominion many hundreds of millions of dollars to enable the operations of the Allies to be carried to a successful conclusion.

When Canadians loaned their money to the Government, they received bonds which were promises to repay them the sum loaned with interest at the rate of 5% or 3½% per annum. On the 1st of October next, \$53,000,000 of these bonds become due; on the 1st of November, 1932, the maturity will be \$73,000,000; on the 1st of November, 1933, \$446,000,000; and, in 1934, \$511,000,000 must be provided for.

It would not be prudent, either in the interest of the security holders or the country itself, to wait until these loans become due before providing for their payment or conversion. Action must be taken well in advance of the due dates to protect the credit of the country. The Government believes this an opportune time to afford Canadians the opportunity to exchange the bonds, which they own maturing in the next few years, for new bonds of the Dominion of Canada carrying interest at the rate of 4½% per annum, which is a very attractive return. Prior to the maturity date of the present bonds, those who accept this offer will, of course, continue to be paid interest at the rate as provided by the bonds they exchange.

Canadians who have always shown confidence in their country are earnestly invited to exchange the bonds they now own for bonds of the new issue. By so doing, they will render less difficult the task of providing for the future finances of the country, will enhance its credit and will greatly assist the Government in the present period of worldwide readjustments.

No money will be asked for and no new bonds will be sold at this time. It is proposed to limit the present conversion to \$250,000,000, but the Government has the right at its discretion to increase the amount if Canadians indicate a general desire to continue their investments in the securities of their Dominion. The subscription books will close on the 23rd of May.

I earnestly seek the active support of my fellow Canadians in making this conversion, which is one of the largest financial operations our country has undertaken in recent years, creditable alike to Canada and its citizens.

Minister of Finance.

Spring and Summer Suits for Men and Boys in Very Newest Styles

Men's Fine Dress Suits

In very rich looking Tweeds, Serges and Plaids, priced to give buyers remarkable value. Get a stylish Summer Suit NOW!

\$15 to \$28**Suits for Boys from 6 to 16 Years**

New Uses For Wheat And Other Grains Is Subject Of Research Council Survey

News uses for surpluses of wheat and other grains are being made the subject of an exhaustive survey by the National Research Council. It was announced in a statement issued recently. Other studies are being conducted in the hope of developing processes which will turn waste materials into products of commercial value.

Dealing with the program of the National Research Council, the statement set forth:

"Two researches initiated are already yielding interesting results. One of these is a study of the refuse screenings (largely weed seeds), which accumulate at the elevators at the head of the lakes to the extent of more than 50,000 tons a year.

"Today these screenings, if marketable at all, fetch almost nothing. The research is already indicating that they could be made to yield products—oil for soap making, fertilizer and possibly feed—which would make them distinctly valuable.

"In the other research a beginning has been made on the problem of finding methods of utilizing straw. This big problem is not likely to be solved in a hurry, but is surely one which a Canadian research institution should tackle. The traveler through Western Canada after harvest cannot fail to have been impressed by the almost mountainous piles of straw which dot the landscape, but few probably realize that the total amount of straw grown in Canada each year aggregates about 50,000,000 tons.

"The National Research Council is making a careful study of the possibilities of using surplus grain for the manufacture of fuel, alcohol, starch, dextrine, glucose and other sugars, acids and lacquer solvents by means of fermentation, oils, etc. This includes a study not only of the technical but also of the economic aspects. The latter are clearly important, as the fact that a given method of utilizing grain for manufacturing purposes is economical only in seasons when prices are abnormally low, obviously an important consideration in determining the feasibility of establishing plants based on such a method."

A Canadian Egg Plant

Experimental Work Being Carried On To Get Type Fixed

An egg plant which promises much of value to Canadians is referred to in the annual report of the director of Dominion experimental farms. As the result of long continued studies, the Dominion horticulturist makes the following observations:

A Japanese egg plant called Negi-saki, with fruit too small for the general market, having proved the only egg plant that would produce a satisfactory crop in many parts of Canada owing to its earliness, was crossed with the Black Beauty, one of the large but rather late varieties, with the result that an egg plant of good size was produced, which is much earlier than the Black Beauty. Experimental work in this connection is now being centred upon getting the type fixed. When this is accomplished, an egg plant suitable for cultivation under Canadian conditions will be established and it will probably become an important new factor in horticulture throughout Canada.

Light Bulb With Little Heat

One of the problems long attempted by science, that of producing light without heat, has been brought nearer to solution by a Berlin scientist who has succeeded in making an incandescent lamp in which eighty per cent of the energy supplied by the electric current is converted into light. Many of the best lamps used today yield not more than six per cent, in light, the remainder appearing as heat and other radiations.

"Silk in Japanese warehouses at one time recently was valued at \$400,000,000.

"Look here, stand me a whisky and soda, and you may win."—Dorffbarrier, Berlin.

W. N. U. 1890

Better Demand For Wheat

European Market Much Stronger During Past Few Weeks

Europe is buying Canadian wheat again, indicates the monthly report on grain movement issued by E. A. Ursell, statistician to the Dominion Board of Grain Commissioners. Also, he forecasts, Europe will continue to buy Canadian wheat.

In April, exports of wheat from the Dominion totalled 16,660,843 bushels—more than 3,000,000 bushels in excess of exports for March. Of the April total, 15,066,843 bushels were cleared from seaboard ports. The rest was sold in the United States for milling in bond. Mr. Ursell mentions that chartering of tramp tonnage and available liner space is brisk at Montreal, an indication that wheat movement during May will be substantial.

Vancouver and Prince Rupert, Pacific ports, were leading export points in April, a total of 5,872,855 bushels being shipped from the two. Shipments from Canada ports on the Atlantic amounted to 3,633,988 bushels, cleared from United States eastern ports. Imports of Canadian wheat for milling in bond totalled 1,585,000 bushels.

Wheat From Russia

Britain Purchases More Wheat From Russia Than From Canada

Canada came second best to Soviet Russia in supplying wheat to the United Kingdom. In the first three months of 1931, it was announced by the Department of Trade and Commerce, in the corresponding period of 1930 and 1929 the Argentine Republic led with Canada a close second. This year the Argentine Republic has been relegated to fourth place. In a summary of trade conditions in the United Kingdom in the first quarter of the year, Harrison Watson, Canadian Trade Commissioner in London, England, reports that of total imports of wheat amounting to 41,000,000 bushels, the Soviet Russia supplied 10,800,000; Canada, 10,400,000; Australia, 8,000,000; and the Argentine Republic, 7,587,000.

Canada maintains her lead as the chief source of imports into the United Kingdom of wheat four supply 732,343 cwt. in the first quarter of 1931, as compared with 492,214 cwt. from the United States, her nearest competitor.

Where Plumb Line Is Crooked

In Northern India It Always Inclines Toward the South

India is a land of wonders. It has the tallest mountain in the world, the biggest avalanches, the rainiest spot, and so many snakes that 20,000 people and 1,000 cattle are killed by them every year. But there is a still greater wonder. You know that if a boy holds up a plumb line in England—that is, a string with a weight on it—it hangs straight down; but in Northern India if a boy holds up a plumb-line it does not hang straight, it leans towards the south. Why is this? One would think that if it leaned at all it would slant towards the mighty Himalaya mountains, attracted by their great mass. But, as a matter of fact, these mountains are made of light rocks, while the great Deccan Plain to the south consists of very dense and heavy soil. The plain, therefore, attracts the plumb-line a little out of the straight.

Establish Packing Plant

Eastern Syndicate To Commence Operations In Saskatchewan

A Prince Edward Island syndicate has purchased a three-quarter section farm close to Long Lake, Stranborough, Sask., for the purpose of producing, raising and slaughtering hogs, and curing and shipping bacon to England. It is stated that the buildings capable of holding 5,000 hogs are being erected and the necessary machinery and equipment secured. Foundation stock of pure-bred Yorkshire hogs has been purchased and shipped to Long Lake.

High Finance

Twelve out of 17 police captains so far investigated in Chicago had excessive bank accounts. One of them, on a salary of \$4,000 a year, bought \$48,000 worth of securities in four years. At least it is to be said of him that he did not waste his substance in riotous living.

Horace, Pliny, and other writers of ancient Rome complained of the noise of the city, long before automobiles, street cars, and radios, says a writer of the Classical Weekly.

QUEEN MARY ATTENDS WEDDING

Queen Mary leaving St. Margaret's, Westminster, with the bride's father, after recent wedding of her godchild, daughter of Sir Derek Koppel, Master of the Household, to Philip Broadhead, M.C. Her majesty motored from Windsor especially for the occasion.

No Cause For Alarm

World Will End In Million Million Years, Says Astronomer

Accurate data on the precise moment when the Archangel Gabriel will send a blast from the trumpet of doom to destroy man and all his handiwork was obtained when Sir James Jeans, noted British astronomer, arrived at New York on the liner "Mauretania."

Sir James took two deep breaths and announced that, bearing unforeseen accidents the end of the world would arrive in a million million years. Whereupon, New Yorkers went right ahead with their plans for the week-end.

Substitute For Flax

New Grain Is Being Tested Out In Western Canada

Safflower, which looks like a thistle without prickles, and has been cultivated in India and Egypt as an oil seed crop, is being tested in Western Canada, as a partial substitute for flax. The seeds contain a drying oil valuable in the production of paints and varnishes, and the oil cake is useful as stock feed. Safflower is suggested by experts in agriculture as a possible supplementary crop to flax in the Prairie Provinces.

Nothing pleases a loafer more than to annoy a busy man.

FASHION

Farm To City Movement Is Becoming Less Popular And Reaction Is Setting In

Manitoba Hay For Scotland

Inquiry Is Made Regarding Shipments Via H.B. Route

A shipment of Western Canadian timothy hay to the Old Country market via the Hudson Bay Railway and Churchill, was a new possibility presented to the Board of Trade of The Pas, in a letter from the official Canadian Government Trade Commissioner in Glasgow, Scotland.

Asking for information as to the available supply of timothy in the western part of Canada and setting forth some of the market facts in Scotland, D. A. Ross, secretary of The Pas Board of Trade, received the letter from G. B. Johnson, in Glasgow, Scotland.

The letter in part follows: "Your name has been given to me by the Minister of Mines and Natural Resources, Manitoba, with reference to the following. A firm in Glasgow, Scotland, who import the largest quantities of Canadian hay in Scotland, and have for many years desired to have information on the prospects of hay shipments from the prairie provinces via Churchill. As this route will evidently be open for transportation in a few months time, there should be an opportunity for timothy hay for this market from Manitoba, if this quality is grown there."

The letter gives the details of the market, and urges the local Board of Trade to investigate the possibilities of the market. The board will make a searching inquiry into the matter within the next few weeks.

Alberta Beef For Britain

May Ship From 400 to 500 Head Of Prime Beef Cattle Per Week

Larger supplies of one of Britain's principal items on the menu of the people of that country—beef—may be sent from Alberta, if satisfactory arrangements can be made between the British Consumers' Co-operative and Alberta breeders. Representatives of this co-operative society, which caters to upwards of twenty million consumers in the British Isles, after an extensive tour of Alberta ranches, stock farms and feed lots, have, it is reported, stated their intention of taking from 400 to 500 head of prime beef cattle per week, provided a standard of quality can be guaranteed. They have been in consultation with members of the Alberta Government and representatives of the Alberta stockmen's associations and co-operatives.

Particular interest was evinced by the British buyers in the "feed lots" in the vicinity of Raymond, Alberta, where baby beef are being fed on beet by-products from the beet sugar refinery there in combination with alfalfa and other foods.

The representatives of the British Consumers' Co-operative, which has its headquarters at Manchester, England, are George Riddle, W. Eastwood and George W. Brooks, accompanied by A. C. Wieland, representative in Montreal of the co-operative.

Wheat Has Limited Vitality

Will Live For Good Many Years But Not Thousands

Wheat from Tutankhamen's tomb or from that of any other mummy's home in Egypt will not sprout on any farm in the world, and if anyone thinks otherwise, Sir Wallis Budge, the world's most eminent Egyptologist, is ready to undeceive him. Sir Wallis, for the past quarter of a century, has been told the story so often that he had a little form printed in which he explained just why nothing of the kind could happen.

He writes to the "Times" telling the reason once more. What is dug up in Egyptian mummy tombs by an excited guide in front of a tourist is wheat all right, he says, but it is wheat that has been hidden there by modern Egyptians who regard the tombs as excellent storage places.

Geniously ancient wheat, recovered from tombs that have been opened for the first time, has been made the subject of experiments at Kew Gardens, London, England, by experts under scientific conditions and in no instance, has such wheat ever sprouted. Finally not one of the excavators at Tutankhamen's tomb discovered any wheat in it. What it seems has only a limited vitality. It will live for a good many years, but will not for thousands.

There are several forms of capital punishment. Income tax is one.

Iceland is shipping frozen meat to other countries.

It is so unusual to hear a good word of farming nowadays that it is not surprising the statement of an individual, who says he has tried both town and country life, and that he found that a family is better off on the farm with an income of \$1500 than it is in the city with an income of \$5,000, should have been given considerable publicity.

It does seem far-fetched, to put it mildly. A family can live very comfortably on five thousand a year in the city, but surely, with the greatest economy, it would be hard to do more than exist on \$850, even in the country. But here we have the word of a man who speaks from experience, and he explains how the seemingly impossible is accomplished. In the first place, the question is not to be considered entirely on a monetary basis; there is more to life than merely living in elegant surroundings, with expensive food to eat, costly and the equipment of various kinds, the round of engagements and social functions which the city family comes to regard as an indispensable part of its normal existence.

On the farm, the family gets at nominal cost the products essential for the maintenance of healthy life; it gets plenty of outdoor exercise, which also makes for health and enjoyment. Perhaps, on the small income mentioned, it gets little more. Whether the family would be happier under such conditions than it would be in the city, with an income of nearly \$100 a week is, after all, a matter of individual temperament. Some would, and others wouldn't. It is cracked up to be even for those who are comparatively well off.

It is said that a reaction is plainly discernible, and that the farm-to-city movement is less popular than it used to be. The land is the basis of all prosperity, and it is a very good sign if a growing appreciation of farm life is in evidence. It may be regarded as a retreat from over-sophistication.

Canada's Fresh Water Fisheries Are Source Of Large Yearly Revenue To Dominion

The Canadian Information Bureau states that "more than half the fresh water of the globe is contained in inland waters of Canada." As anybody knows who has used the rod in the Dominion and Newfoundland these waters are full of fish, but not everybody knows what a large revenue the fisheries bring in. It is greatest in Quebec, Ontario, and the Prairie Provinces. In 1929, Ontario led with \$3,920,000, and other totals were: Manitoba, \$2,745,000; Alberta, \$733,000; Saskatchewan, \$500,000; Quebec, \$564,000. While American sportsmen use the fly to fill their baskets in New Brunswick, that province makes a comparatively small commercial contribution, but from deep-sea fishing its return is large.

One of the most delicious fish is the whitefish. It is abundant in Canada. In a normal year the whitefish for the whole country bring in about \$2,600,000. Ontario enjoys the largest share, with Manitoba, Saskatchewan and Alberta following in that order.

New Landing Field Invented

A garage and landing field for aircraft on top of tall office buildings has been invented. Incoming pilots would direct their "planes into a wind tunnel only twice as wide and twice as high as the machine itself. On either side of the tunnel fans set in motion by a signalman would force air out at the exact speed of the landing 'plane. When the 'plane comes to a stop, the propellers and the fans would be cut off at the same instant.

Pocket Radio Sets

Pocket radio sets weighing less than two pounds and having an effective range of 100 miles are to be carried by London policemen on their rounds to keep in touch with headquarters.

"Young Peter is an aristocrat." "Yes, he is sixpence in debt already."—Dorffbarrier, Berlin.

Take Long Walks Fat Men are Told

How can you walk off your fat if you haven't any energy to do it? You can take off fat with Kruschen Salts if you will take one-half teaspoon in hot water every morning before breakfast, modify your diet and exercise regularly.

There are six different salts in Kruschen that your body organs must have if you are to enjoy good health. While you are losing fat you will be gaining in vigor, energy, vitality and power of endurance.

That means that soon you will be able to walk many miles without fatigue and enjoy every step you walk.

Drug Stores all over Canada sell Kruschen Salts, and a jar costs but 75 cents—it's a real blessing to fat people.

WORLD HAPPENINGS BRIEFLY TOLD

An inter-provincial conference will be held at Ottawa this autumn to discuss federal and provincial taxation boundaries.

The harbour enquiry to be conducted by Sir Alexander Gibb will include the part of New Westminster as well as that of Vancouver.

No trade agreement with Cuba has been made by the Dominion Government, although Cuba is considering proposals made by Canada.

Dr. Harriet Clabey, who celebrated her 100th birthday last August and was said to be the oldest woman physician in the world, is dead at her home in West Kensington, England.

A world-wide conference on pool experience and the seeking of remedies was suggested at Leeds, England, by Rt. Hon. J. H. Thomas, Dominions secretary.

The government of France is to have its own legislation bureau in Canada, according to announcement by Hon. C. A. Henry, French minister to Ottawa.

Close to 10,000 Toronto people who have tickets on the Irish Free State Hospital sweepstakes haven't a chance for a prize. Their tickets have been seized in the mails.

Indian farmers throughout the prairie provinces have sown a larger acreage of wheat this year than in the spring of 1930, according to observations of W. M. Graham, commissioner for Indian Affairs.

Rt. Hon. C. R. Attee, postmaster-general, informed a questioner in the British House of Commons that the government was not prepared to reintroduce penny postage at an early date.

For the first time in Spanish history women will be eligible to membership in the next election. The government has announced that all citizens, irrespective of sex or profession, may be candidates.

Yale Fellowships

Western Canada Students Have Received Awards

The award of 176 fellowships and scholarships, including Canadian awards, and having a value of more than \$130,000, representing the income from gifts of over \$2,000,000, were announced by the graduate school of Yale University recently. The awards cover the study period of 1930-1931.

William F. Hanna, of Winnipeg, B.A., Dalhousie University, 1914, B.S.C., University of Alberta, 1923, Ph.D., University of Manitoba, 1928, will study the genetic relationship of Tilletia levis and T. tritici, the fungi causing "bunt" of wheat.

Edith M. Mason, of Victoria, B.C., B.A., King's College, 1918, M.A., Dalhousie University, 1925, wishes to study the life and works of Collin D'Narville.

Canadian Bond Sales

Canadian bond sales for the year to date amount to \$211,933,386, as compared with \$191,969,321 for the corresponding period of last year, and \$140,814,686 for that of the year before. Purchases by Canadian financial houses made up a total of \$147,366,386, while American firms bought to the extent of \$59,787,000 and British, \$4,100,000.

English golfers are adopting the American no-coat idea.

The Cost Of Sickness

Unnecessary Loss Of Life Each Year From Diseases That Could Be Prevented

(By John Burke Ingram.)

One Canadian out of every three dies ahead of his time, statistics show. One death out of every three deaths that bring sorrow to Canadian communities, large and small, could be postponed. We Canadians are not taking our friends and relatives die because we do not know how many diseases there are which could be prevented or because knowing, we will not take the trouble, the simple trouble to prevent them. Why are the statistics not prevented?

That is the question which every thinking Canadian should want answered! For centuries disease was inevitable because mankind had not learned how to prevent it. Doctors existed to heal the sick, but it was nobody's business to attempt to prevent sickness from occurring because in those days it could not be done.

Then an English scientist named Edward Jenner, discovered vaccination against smallpox. Doctors began to vaccinate people—which meant that doctors began to treat "Healthy" people, in order to keep them from becoming ill by contracting smallpox. As a result this disease, at one time the greatest scourge of the race, has been beaten down till today it occupies a negligible place among the killers of civilized men.

The success of vaccination made medical scientists think along new lines. If a substance had been discovered which would prevent smallpox, why could not other substances be evolved to prevent other diseases? The idea was sound. Today there is a substance which prevents diphtheria, another to prevent typhoid fever, another against scarlet fever, another to prevent lockjaw, another which used in infantile paralysis prevents crippling.

But though science is in a condition to prevent diseases by these and other means we are not taking advantage of the protection which is offered to us. For centuries we regarded disease as a kind of god, and because it is hard to change the thinking habits of a people in one

single generation we will, even most of our leaders, retain this medieval attitude.

And therefore today, Canada's lifeblood is flowing from wounds inflicted upon her by her enemies—disease germs. Not merely in dollars and cents alone—disease milks us annually—but also in our man-power. Canada needs population. Canada is constantly bringing foreign and other immigrants to our shore, yet she permits her own sons and daughters to die of diseases which could be, and should be, and some day shall be prevented! Diphtheria and typhoid fever, both preventable, take respectively 1,200 and 1,111 lives annually, yet both diseases are preventable! The death rate from tuberculosis has been cut in two in the past 25 years, and could be even with our present incomplete knowledge halved and halved again. Cancer kills almost 8,000 Canadians every year, and despite the fact that we don't know what causes cancer, this death rate could be cut in half if adult Canadians would cultivate the habit of having themselves periodically and thoroughly examined by a competent physician every birthday. And so all through the pitiful list of diseases which now rob us of our best and fairest—heart disease, maternal mortality, infant mortality, venereal diseases, all can be cut down if men and women will realize that they get just exactly the kind of health service that they want and are willing to pay for, and that by backing their public health official, they may, in some measure, be held responsible for the health of a nation that is too indifferent to help itself.

SUNDAY SCHOOL LESSON

MAY 24

JESUS PREPARING FOR THE END

Golden Text: "This do in remembrance of Me."—Luke 22:19.
Lesson: Luke 21:1 to 22:23.
Devotional Reading: Isaiah 53:1-6.

Explanations and Comments

The Preparation For Keeping the Passover, Text: 13.—While the city of Jerusalem was lying in ruins, Jesus came to the Passover Supper, the day of unleavened bread, and the chief priests were plotting how they might put Jesus to death. Jesus had two of His disciples, Peter and John, make preparations for their keeping of the feast. "Where?" they asked Him, and Jesus directed them to make ready for the Passover. A man bearing a pitcher of water to follow him. Water was carried by women in jars upon their heads, and a man doing this work would be a solitary and unusual figure. To the owner of the house to which the man would enter, Jesus bade them say: "The Master asked where he should eat the Passover with his disciples. The owner would show them a large upper room where they were to make ready for the Passover. The disciples followed His directions. The Prelude To The Lord's Supper, 22:1-6.—When the hour was come (when evening was come, Matthew), Jesus sat down (reclined on a couch) with His disciples to partake of the Paschal Supper. "With desire have I desired [intensely have I longed] to eat this Passover with you before I suffer." Why? For His own sake. There was comfort for His own heart in suffering with them, and in manifesting His love. With tender, solemn thought He had looked forward to it, suffering with them, and in manifesting His love. With tender, solemn thought He had looked forward to it, suffering with them, and in manifesting His love.

Divorce By Legislation

The ninth application for divorce in the last 50 years was recently before the legislative council of the Isle of Man. As the island has no divorce law, a special bill must be passed for each case. After the council has passed the bill, it must be passed by the House of Keys, sent to London for royal assent and finally promulgated from the open-air Tynwald Court.

Difference In Force Of Gravity

A body weighing one pound at the earth's surface would weigh 27 pounds at the surface of the sun.

Gift For King George

Presented With Valuable Addition To Stamp Collection

King George has accepted a valuable addition to his wonderful collection of postage stamps, an album which contains a complete set of the new pictorial postage stamps for the territory of Southwest Africa, together with a series of the issued stamps in unused, marginal blocks of four, for the royal collection. The presentation was made recently on behalf of the Union Government by the high commissioner for South Africa, C. T. Water. These are the first stamps of definitive design to be circulated in the mandated territory, where up to now over-printed types of the Union itself have been employed. The subjects were obtained in open competition from South African artists, and from photographs, sketches and paintings selected by Colonel J. A. Venning, director of posts and telegraphs at Windhoek, while the actual engraving and printing has been carried out by Bradbury, Wilkinson and Company, Limited, at New Malden, Surrey, England.

Recipes For This Week

(By Betty Barclay)

CARROT PUDDING

This is a dessert well liked by those who visit Portugal. It is equally nice served with a pudding sauce or with cream.

1/2 cup butter.
1/2 cup brown sugar.
1 egg.
1 cup raw carrots, grated.
2 teaspoons lemon peel, grated.
1 1/4 cups flour.
1/2 teaspoon soda.
1 teaspoon baking powder.
1 teaspoon cinnamon.
1/2 teaspoon ginger.

Cream the butter. Add the sugar and slightly beaten egg. Stir in the carrots and grated lemon peel. Mix and sift the dry ingredients. Add to first mixture. Bake in a buttered pudding pan for one hour. Serve hot.

BEEF LOAF

1 1/2 pounds round of beef.
1 quart cold water.
1 tablespoon vinegar.
1 teaspoon sugar.
1 teaspoon sage and thyme, mixed.
1 tablespoon Worcestershire sauce.
Salt and pepper.

Simmer the beef in the water with the salt until meat is tender. Cool. Remove bones and fat, and chop very fine. Boil the liquid until reduced to one cup. Add vinegar, sugar, sage, sauce, thyme, salt and pepper. Mix with the meat. Press into a buttered mold and leave to become thoroughly cold. Serve with tomatoes and lettuce with mayonnaise.

Icebergs contain no salt, because they are formed of glacier ice which was originally snow.

Iliteracy is deplorable, but it is not as bad as being able to read everything and believing it all.

Mosquitoes never breed in swiftly flowing water.

Wicklow, Ireland, is trying to find means of housing its poor.

Canada and Newsprint Production

More Newsprint Made In Canada Than Any Other Country

More newsprint paper is made in Canada than in any other country. In 1930, Canada manufactured 2,504,000 tons, 36 per cent. of the world production of newsprint paper. The tonnage was practically double that turned out in the United States, which was the nearest competitor to the Canadian mills with an output of 18 per cent. of the world total. Great Britain and Germany each manufactured about nine per cent. and Newfoundland and Japan four per cent. each. These six countries accounted for about four-fifths of the world supply of newsprint which totalled 6,975,000 tons last year.

Though Canada's production totalled 36 per cent. of the aggregate tonnage of the world, the country produces upwards of 20 countries producing newsprint, her proportion of the export market was even larger.

Exhibition For Charity

England's fancy mice exhibition, at St. Albans, England, had more than 70 various kinds of plain and fancy mice shown by women fanciers. Mostly experimental, there are few limits to the combinations and cross breeds obtainable. Among the freak results are white mice with black eyes; silver and tan mice; black and tan mice, and one instance, extremely rare, a blue mouse. Proceeds from the exhibition are for charity.

By a new decree all tooth pastes must be analyzed, approved and registered by the government before they can be sold in Argentina.

"Paint-Up Bill" Says

Every Brushful Means Added
Beauty and Value

Every brushful of paint or enamel or varnish that I put on a house or inside it, means added beauty and a better, more cheerful house in which to live. A man is robbing himself and keeping good cheer from his family when he permits his place to "run down" in this respect.

People themselves can do a great many helpful and intrinsically necessary and valuable painting jobs about their homes. The professional painter can attend to the difficult tasks, but the amateur has a place in the scheme of things, too. It only means good materials.

Monday (Victoria Day) is a national holiday, and all business establishments and the post-office will be closed. Coleman baseball team will play at Cowley sports.

Rancher Beck says he gets, 80c for a horsehide and 57c for a cow hide, yet has to pay \$2.00 for a pair of gloves and \$8.00 for a pair of shoes. He wants to know why

Coleman Public and High Schools DENTAL CONTRACT

MEMORANDUM OF AGREEMENT made this 13th day of April, in the year of our Lord, Nineteen Hundred and Thirty One.

Between:—
The Coleman School District No. 1216, herein called The Party of the First Part

and
Doctor D. A. McLeod of the Town of Coleman, in the Province of Alberta (Dental Surgeon) herein called The Party of the Second Part.

Witnesseth:—that in consideration of the performance and observation of the covenants and conditions hereinafter reserved and contained the parties hereto agree with each other as follows:—

The Party of the Second Part doth hereby agree that he will make examinations, perform extractions, furnish and make silver and copper amalgam fillings, cleaning and all work incidental thereto, and give prophylactic treatments for all the pupils at the Coleman Public and High Schools.

The Party of the Second Part covenants and agrees that he will attend at his office and be available for such work ONLY, between the hours of 9 a. m. and 12 a. m. each week day except Saturdays and legal school holidays, NOTWITHSTANDING, it is understood and agreed that the doctor will attend to emergency cases at any time, day or night, during the life of this agreement.

The Party of the Second Part covenants and agrees to furnish all material and equipment necessary to carry out and perform the said work at his own expense and at his own office at Coleman.

The Party of the Second Part covenants and agrees to furnish a chart or card system in triplicate, the said system to meet the approval of, and become the property of The Party of the First Part.

The Party of the Second Part covenants and agrees to furnish a report each and every month showing the amount of work and the nature of same that is being done, and each and every member of the School Board will have the privilege of entering the doctor's office at such times when the work on school children is being performed.

In the case of a pupil needing a general anaesthetic, The Party of the Second Part covenants and agrees to furnish same at his own expense.

The Party of the First Part covenants and agrees to pay the Party of the Second Part for such professional attendance, material and equipment hereinbefore mentioned, the sum of \$120.00 in each and every month during this agreement except the months of July and August, and no other charges of any kind will be allowed.

It is understood and agreed that this agreement shall continue in force and effect for the space of twelve calendar months from the 15th day of April, 1931 and shall cease on the 14th day of April, 1932, and further, it is understood and agreed that the whole of the pupils will receive examination and treatment if necessary during the twelve month period.

The Party of the Second Part covenants and agrees that all work and professional attendance hereunder shall be performed by a Dental Surgeon licensed under the Laws of the Province of Alberta and all material and equipment used shall conform to the requirements of best dental practice.

It is agreed that time shall be the essence of this agreement.

IN WITNESS WHEREOF—The Party of the Second Part has hereunto set his hand and seal, and the Party of the First Part has caused its seal to be affixed and attested by the proper officer on that behalf.

JAS. ALLAN

D. A. McLEOD.

SIGNED, SEALED AND DELIVERED at the Town of Coleman, in the Province of Alberta, this 13th day of April, 1931, in the presence of—
HERBERT SNOWDON

there should be such a difference, and who gets the profit. We are not able to answer the question. Why does an egg omelette cost 60c when eggs are 8c a dozen. And why does shredded wheat cost, per 25c package, almost as much as a bushel of wheat? And why is everything as it is? Ask us another!

Freda, daughter of Mr. and Mrs. Fred Antrobus, was among the prize winners at Calgary musical festival. She is a pupil of Miss Madeleine Chardon, who also had several other pupils among the prize-winners.
